

## **Cookies In Use on This Site**

### **Cookies and how they Benefit You**

Our website uses cookies, as almost all websites do, to help provide you with the best experience we can. Cookies are small text files that are placed on your computer or mobile phone when you browse websites

Our cookies help us:

- Make our website work as you'd expect
- Remember your settings during and between visits
- Improve the speed/security of the site
- Continuously improve our website for you
- Make our marketing more efficient (ultimately helping us to offer the service we do at the price we do)

We do not use cookies to:

- Collect any personally identifiable information (without your express permission)
- Collect any sensitive information (without your express permission)
- Pass data to advertising networks
- Pass personally identifiable data to third parties
- Pay sales commissions

You can learn more about all the cookies we use below.

### **Granting us permission to use cookies**

If the settings on your software that you are using to view this website (your browser) are adjusted to accept cookies we take this, and your continued use of our website, to mean that you are fine with this. Should you wish to remove or not use cookies from our site you can learn how to do this below, however doing so will likely mean that our site will not work as you would expect.

### **More about our Cookies**

#### **Website Function Cookies**

##### **Our own cookies**

We use cookies to make our website work including:

- Making our shopping basket and checkout work
- Remembering your search settings

There is no way to prevent these cookies being set other than to not use our site.

## Visitor Statistics Cookies

We use cookies to compile visitor statistics such as how many people have visited our website, what type of technology they are using (e.g. Mac or Windows which helps to identify when our site isn't working as it should for particular technologies), how long they spend on the site, what page they look at etc. This helps us to continuously improve our website. These analytics programs also tell us if how people reached this site (e.g. from a search engine) and whether they have been here before helping us to put more money into developing our services for you instead of marketing spend.

## Turning Cookies Off

You can usually switch cookies off by adjusting your browser settings to stop it from accepting cookies (Learn how [here](#)). Doing so however will likely limit the functionality of ours and a large proportion of the world's websites as cookies are a standard part of most modern websites

It may be that you concerns around cookies relate to so called "spyware". Rather than switching off cookies in your browser you may find that anti-spyware software achieves the same objective by automatically deleting cookies considered to be invasive.

All modern browsers allow you to change your cookie settings. These settings will typically be found in the 'options' or 'preferences' menu of your browser. In order to understand these settings, the following links may be helpful, otherwise you should use the 'Help' option in your browser for more details.

[Cookie settings in Internet Explorer](#)

[Cookie settings in Firefox](#)

[Cookie settings in Chrome](#)

[Cookie settings in Safari](#)

If you are primarily concerned about third party cookies generated by advertisers, you can turn these off by going to the Your [Online Choices](#) site.
